

The Compost Bin Song

There's a **worm** living in the **compost**
And his name is **Wiggly Woo**.

There's a **worm** living in the **compost**
And all that he can do is...

Nibble all night and **nibble** all day

Recycling the apple cores to help them rot away

There's a **worm** living in the **compost**
And his name is **Wiggly Woo**.

Things to try:

- Make up actions to go with the words **worm**, **compost**, **nibble** and **Wiggly Woo**.
- Think of other things that the worms living in the compost bin can recycle (fruit, vegetables, plants from the garden...)
- Compose more verses for the song using the other minibeasts living in the compost bin.
