

Bin check

You are going to investigate whether pupils and teachers in your school are recycling as much as possible.

Instructions

1. Walk around the school, visiting every classroom and office.
2. If somebody is in the room, knock on the door and ask whether you can pop in.
3. Find the rubbish bin, being careful not to disturb people who are working.
4. Look in the bin to see if there are any materials that should have been recycled.

DO NOT TOUCH THE RUBBISH

5. Record your results in the table below using Y for 'yes', N for 'no'.
6. Discuss your results. What feedback are you going to give to the rest of the school? Include some good news as well as advice for improving your recycling.

Date:	Is there <u>paper</u> in the rubbish bin that should have been recycled?	Are there <u>other materials</u> in the rubbish bin that should have been recycled?
Room		
Example	Y	N
TOTAL 'YES'
